REMAINS LIE IN STATE. The catafalque is similar to the one used when the remains of the late Rt. Rev. Bishop O'Hara reposed in state. Its consists of a platform raised about four feet from the floor and approached by steps from the main floor. In the center of this is the bler on which

rests the casket, inclined so that the

face of the dead clergyman is visible in all parts of the church. The body is draped in the purple vestments of the church. The face bears that calm, gentle, expression so characteristic of the man in life, but there are drawn lines at the corners of the mouth and furrows on the forehead that tell of terrible physical suf-

MAYOR MOIR WILL SIGN THE RESOLUTION.

Select / Council Last Night Passed Favorably Upon the Measure and It Will Become Effective Today-City Treasury Is in a Very Much Depleted Condition-There Is No Likelihood of any Further Extension of Time Being Granted This Year by Councils.

It can be definitely announced that Mayor James Moir will sign the reso lution granting an extension of time for the payment of city taxes until The mayor stated some few-days ago that he was undecided as to

whether he would sign the resolution or not and intimated that he would This led to a general feeling of uncertainty among taxpayers desirous of

avoiding the payment of a penalty.

they would have to pay their taxes before tomorrow, which was the first It was very evident, however, that the majority were convinced that the mayor would bow to time-honored custom and grant the extension of time as very few, comparatively speaking, appeared at the city treasurer's offic

yesterday to pay their taxes. The city treasury is at present most deplorably depleted condition Deputy Treasurer Ruane stated at before closing time yesterday afteryesterday, there remained in the general city account a balance of only a little more than \$3,000.

#### OUTSTANDING WARRANTS.

Inquiry at City Clerk Lavelle's office evenled the fact that there are be ween \$27,000 and \$30,000 worth of warrants awaiting the signature of the controller, who is not allowed to countersign until he is assured that there is sufficient money in the treasury.

Among these warrants are a large

umber of salary orders for the employes of the street cleaning depart-ment, none of whom have been paid since June. The non-payment of the salaries of these employes, many of whom lead a hand-to-mouth existence, has been productive of a deal of suffering in a great many instances, Controller Howell said that he will

untersign all warrants already drawn up just as soon as the money received in the treasurer's office, aking care of the above-mentioned street employes' warrants first of all. Now that the extension of time is

o be granted, is is expected that the noney will not roll in very rapidly for the first few weeks and that the treasury will continue to be depleted unless some of the big corporations having large interests here come to the resue and pay part of their taxes at

#### HAD NOT PAID.

None of the corporations which are heavy taxpayers had paid their taxes up to yesterday afternoon, but some of the city officials were of the opinion caboose, was thrown out with great that they would do so today or to-force when the two engines collided. the treasury was very low, as it is at present, the Lackawanna came forward and paid half of its taxes, materially assisting the pay-

men of outstanding claims. It is very probable that this year vill see the end of granting extensions of time for the payment of taxes without a penalty until the middle of Derember, as has been the custom heretofore, and it is very likely that October 15 will be the final date this
